STRENGTHENING RESILIENCE, SHAPING A BRIGHTER TOMORROW

USER MANUAL SINGLE SIGN-ON SYSTEM

CENTRE FOR INFORMATION TECHNOLOGY AND COMMUNICATION

11 SEPTEMBER 2026

*One Account,
A Simpler Way!*

INTRODUCTION TO SSO SYSTEM

The Single Sign-On (SSO) system is an access management mechanism **where users only need one account and one password** to log in to various systems or applications.

For a Safer and Better User Experience

In line with the need for better cybersecurity and a more seamless user experience, the Centre for Information Technology and Communication (CITC) has developed the university's SSO system, known as **OneID@UPNM**.

OneID@UPNM for Easier Access

OneID@UPNM is developed to make it easier for university members (staff and students) to access various systems and applications through one integrated gateway, while supporting the university's digitalisation initiatives and full system integration.

Now It's Easier!

Now integrated with
mydigitalID

Log in more securely, easily
and conveniently.

KEY FEATURES OF THE NEW OneID@UPNM PORTAL V2.0

Two login methods
